

Notice about Verifone's preparations for Brexit and our use of Verifone and third-party sub-processors

Issue Date: October 23, 2019

Dear Karen,

This GDPR notice provides information about: (i) Verifone's preparation for the exit of the United Kingdom from the European Union (EU); (ii) Verifone's affiliates and third-party service providers who support Verifone's payment gateway services.

Brexit

Verifone owns and controls access to the Verifone Cloud Services (VCS) infrastructure that is used to process and store data in the provision of payment gateway services. VCS utilises two (2) high-availability strategic datacentres located in France and the United Kingdom. If the UK exits the EU, then Verifone can still transfer transaction data lawfully from the UK to its datacentre in France, regardless of whether there is a "deal" or "no deal" Brexit. This is because:

- If there is a "deal" Brexit, then data transfers from the UK are unaffected throughout the deal transition period (expected to last until the end of 2020);
- If there is a "no deal" Brexit, then the UK will continue to allow transfers from the UK to the EU in any event (see UK Government guidance).

Verifone Affiliates

Verifone maintains a continuous process of updating and improving the operation and security of the VCS infrastructure. This includes use of security monitoring and engineering support services provided by Verifone affiliate companies (acting as sub-processors) who are located outside of the European Economic Area (EEA). Please refer to the following link to review the affiliate list and to learn more about the support activities provided.

Third-Party Sub-processors

The above weblink also provides information on third-party sub-processors that process data on behalf of Verifone or our customers in the provision of payment gateway services.

Questions

If you have questions or need additional information, please contact your Verifone Sales Representative or Verifone's Data Protection Officer at privacy@verifone.com

Why are you receiving this notification

You're receiving this email because **Corby & Fellas** is an existing Verifone client and **karen@corbyfellas.com** is registered as a contact address.

Yours sincerely

Verifone
